

Vernee bets for Spain and World Driver S.A. as official distributor for sale its mobile devices.

- **The Spanish multinational will be responsible for distribution in Spain and offer official technical support of the brand.**
- **Spanish consumers will be able to acquire the phones through Spanish stores and have a 2-year warranty.**

Barcelona-Shenzhen, November 14, 2017

The Spanish multinational **World Driver S.A.** through an international agreement signed with **Vernee**, becomes the official and authorized distributor for Spain of the brand of mobile phones owned by **Shenzhen New-Bund Technology Co., Ltd.**

Vernee bets for Spain.

From the first moment, **Vernee** has focused its strategy on the European market, participating even in the **MWC 2017** in Barcelona. The manufacturer enjoys a path and plausible recognition by consumers thanks among of other things, to the attractive and innovative design of their smartphones, as well as the inclusion of high-performance internal components while maintaining their commitment to affordable and competitive prices.

Through the signing of this agreement, **World Driver S.A.** provides its extensive network of customers high-end smart devices at reduced prices, it is responsible for providing 2 years of direct warranty in Spain through its own Professional Technical Department, as well as using original spare parts from the facilities in Shenzhen manufacturer

Miguel Ángel Fortes, World Driver S.A. CEO says: "signing this agreement means entering into direct competition with other major international brands that have recently been established in our country, giving consumers the possibility to choose between a greater variety of product and differentiating us from our competitors in terms of high quality product, with state-of-the-art technical features and a really attractive price".

Among the new models that can be found today in all stores in Spain, include the **Vernee Apollo X**, an incredible smartphone with **5.5" curved screen with Full HD resolution, 4GB of RAM and 64GB of internal memory** that incorporates the innovative 10 core processor developed by Mediatek, **Helio P25**.

The **Vernee M5** is another of the dualSIM free mobile phones already available. A design mobile with only **6.9mm thickness with 8 core processor, 4GB of RAM and 64GB of internal storage** with **5.2 "HD panel**.

And for the most demanding, the **Vernee Thor E**, a different phone to the rest whose most notable feature is the generous **5020mAh battery** that allows you to operate for several days in a row without the need to recharge, **8-core processor, 3GB of RAM and 16GB of internal storage**.

The new **Vernee Mix 2**, the Vernee flagship with Octacore processor, **4GB-6GB of RAM** and **64GB of internal storage** that incorporates a **6 "panel with FHD resolution**, without side bezels and premium finish, is also among the new terminals that will land in our country soon.

World Driver S.A. has enabled the website **www.myvernee.es** through which you can access all the information, features and support files for Vernee mobile phones that are being distributed in Spain.

About World Driver S.A.

WD is a Spanish multinational with more than 15 years experience in the consumer electronics which currently markets its products in Spain, Portugal, Andorra, Italy and Perú. It has its headquarters in Barcelona, commercial office in Madrid and operates in Latin America from Lima (Peru). . Likewise, World Driver continues with the design, development and distribution of its own **Leotec** brand, which up to now has had such good results and that is so well accepted by consumers.

About Vernee
